

Declaration of Performance

Certificate No. 0004-CPR-140701

1. Unique identification of the product-type:

Spacesaver Spacesaver Plus Spacesaver Ready-Cut
See table hereunder...

2. Type, batch or serial number or any other element allowing identification of the construction product as required under Article 11(4)

See table hereunder...

3. Intended use or uses of the construction product, in accordance with the applicable harmonised technical specification, as foreseen by the manufacturer:

Thermal Insulation for Buildings.
Factory made glass mineral wool thermal products.

4. Name, registered trade name or registered trade mark and contact address of the manufacturer as required pursuant Article 11(5):

Saint-Gobain Isover, Whitehouse Industrial Estate, Runcorn, Cheshire, WA7 3DP, UK

5. Where applicable, name and contact address of the authorised representative whose mandate covers the tasks specified in article 12(2):

N/A

6. System or systems of Assessment and Verification of Constancy (AVCP) of Performance of the construction product as set out in Annex V:

System 1 (Reaction to fire)
System 3 (all other declared properties)

7. In case of the declaration of performance concerning a construction product covered by a harmonised standard:

Warrington Certification Ltd (1121)

performed initial and continuous surveillance of the place of manufacture and the factory production control implemented, sampled product and witnessed initial type testing under

System 1 and System 3

and issued

the Certificate of Constancy of Performance (1121-CPD-BA0053)
and Certificate of Conformity of the Factory Production Control

8. Declared performance table: According to EN 13162:2012

- (a) No change in reaction to fire properties for mineral wool products.
- (b) The fire performance of mineral wool does not deteriorate with time. The Euroclass classification of the product is related to the organic content, which cannot increase with time.
- (c) Thermal conductivity of mineral wool products does not change with time, experience has shown the fibre structure to be stable and the porosity contains no other gases than atmospheric air.
- (d) For dimensional stability thickness only.
- (e) This characteristic also covers handling and installation.
